

The image features a close-up of a plant stem with clusters of small, green, oval-shaped seed pods or buds. A bright yellow rectangular frame is superimposed over the center of the image. Inside this frame, the letters "NIHC" are written in a large, white, bold, sans-serif font. A faint, diagonal watermark reading "Wondershare PDFelement" is visible across the center of the image, passing through the letters of the logo.

NIHC

Patrick Atagi

President and CEO

National Industrial Hemp Council

NIHC promotes the safe production, marketing and use of hemp throughout the United States through standards development, advocacy, research, and education.

Additionally, NIHC partners with the United States Department of Agriculture to promote exports of American hemp to the international marketplace.

“In 2018, \$139.6 billion worth of American agricultural products were exported around the world. The United States sells more food and fiber to world markets than we import”
